Other ways to donate and support

You can help and support Barnabas Fund in other ways than donating money online.

For all donations ensure that you have either a project reference number to quote (found on the projects page), a specific country in mind or please advise us that you wish for us to administer the monies to the most urgent need. We thank you for your help and support in bringing hope and aid to the persecuted church.

For international supporters outside of the UK, please click here for the contact details of your nearest office.

PayPal

The simplest way to donate via PayPal is through our secure server. Alternatively you can donate in the normal way through your account page on PayPal. Please use the following email address **finance@barnabasfund.org** and add the project's fund number (for example 00-345) in the message section of the payment. Without this number we will not know which project **you want the donation to support**. If a project number is not specified then it will be allocated to the general fund (00-000) and used where the need is deemed greatest.

Alternatively use this link for paypal:

btn_donate

Please note: If you choose to donate directly, and not via our secure server, it is not possible for us to claim Gift Aid on the donation unless we have a current declaration from a previous gift and we will also require your name, address and gift aid eligability. For further information please contact Barnabas Fund's finance department at the above e-mail address**.**
